HR Login Assistance

Internet Explorer Trusted Site Settings
To configure IE so it will execute properly for HR, “*.colostate.edu” must be entered as a trusted website. If it has not been entered, various Java warning and errors messages appear and the HR screen never runs.

1. From the menu bar, click Tools (Alt-T) > Internet Options > Security tab
2. In the “Select a zone ...” area, click the icon labeled “Trusted sites,” the click the “Sites” button
3. The “Trusted sites” window shown below then pops up. Enter “*.colostate.edu” under “Add this website to the zone” and then click Add
4. Make sure the “Require server verification ...” box is unchecked.

Enabling TLS 1.2
Java

1. Open Java from the Windows Control Panel
2. Click the Advanced tab
3. Scroll down to the Advanced Security Settings section
4. Check the Use TLS 1.2 box
5. Click OK and close the Java Control Panel
