TimeClock Plus – Leave Requests

Who Requests Leave through TimeClock Plus?

- All Sick and/or Annual Leave eligible employees except Postdoctoral Fellows
- Employees who accrue comp time

Accessing TimeClock Plus for Leave Requests

- Web interface at the “TimeClock Plus” link at aar.colostate.edu using eID credentials (eName and password)
- Mobile app for iOS or Android (9-digit CSU ID)
- Physical clock (9-digit CSU ID)

Checking Accruals

- Leave accruals occur in the HR system around the 15th of the month and are uploaded into TimeClock Plus
- So leave accrued in the previous month will not be available for use until around the 15th of the current month
- After accessing the TimeClock Plus Dashboard, click VIEW and choose “Accruals”

- “Accrued” shows your current accruals for Sick Leave, Annual Leave, and Comp Time
- “Used Forecast” shows approved (but not pending) leave hours
- “Remaining” shows the remaining hours that can currently be requested
- The “forecast date” and “Accrual Forecast” are not applicable to CSU, because accruals occur in the HR system

• The Calendar view appears by default, but this may be changed to a list view by clicking the List tab

Request Deadlines

• Request leave in advance whenever reasonable.
• Leave may be requested retroactive when necessary (for example, for unexpected Sick leave).
- For retroactive leave requests, create the requests as soon as possible or contact your supervisor or Department HR staff to create the request on your behalf
- For hourly (bi-weekly) employees, leave requests may affect overtime calculations, so they must be created by the end of each week; supervisors must approve these requests by the Tuesday following the end of the pay period
- For salaried (monthly) employees, leave requests must be created by the 5th of the following month; supervisors must approve these requests by the 10th of the following month
- Emails are automatically sent for leave requests and approvals/denials
- You may check the status of a leave request in the REQUESTS section
